react-add-formcustomizer-to-list

Webpart to allow user to associate form customizer to list/library

https://github.com/pnp/sp-dev-fx-webparts/tree/main/samples/react-add-formcustomizer-to-list

Driving Factor

- Form Customizer to List/Libraries with SPFx 1.15
- Needs to do association to Content Type via component ID
- PowerShell, REST API and CSOM
- Ability to do via User Interface
- Associate with multiple list libraries

Summary

- Utility webpart to Simple interface to associate/remove
- Can be used to do it as across site collections
- Ability to Select Site, List, Content Type
- Ability to Associate/Remove
- Ability to choose form type(view/edit/new)

PnP

Notes

- */sites/MyLab/_api/Web/Lists("idoflist")/ContentTypes("contenttypeid")*
- Patch Method
- Object to Pass

```
{
  '__metadata': {
  'type': 'SP.ContentType'
  },
  'NewFormClientSideComponentId: '',
  'DispFormClientSideComponentId': '',
  'EditFormClientSideComponentId': '',
  ‘NewFormClientSideComponentProperties': {},
  ‘DispFormClientSideComponentProperties': {}
  ‘EditFormClientSideComponentProperties': {}
}
```
