```

Monthly Community Quick Tip

How to embed a Power App inside a Power App!

Monthly Community Quick Tip

How to embed a Power App inside a Power App!

The screenshot displays the Power Apps Host App interface. At the top, a green header bar contains the text "Power Apps | Host App" and several icons. Below the header, a code editor shows a "Deep Link (src)" with a URL and a function: `https://apps.powerapps.com/play/e7c906cc-15a2-4b01-95e2-3d05db4abe22?accountId={empty!} make selection`. Below the code editor, there are buttons for "Guest App" and "Theme Designer". The main area shows a "Select account" section with a list of accounts (Name 3, Name 4, Name 6, Name 9) and a "Full screen" button. A large purple "DEMO!" watermark is overlaid on the screen, with an arrow pointing to the "Full screen" button.

Share your Community Quick Tips!

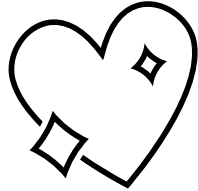

<https://aka.ms/PPCCDemoRequest>

Optional picture time!

Turn your video on and we'll grab a Together Mode picture with everyone willing to participate.

We are together in this as a community!

By enabling your camera for the picture, you'll give us the permission to share your picture in social media.

DEMO

- Approval Scenarios with Power Automate
– Heidi Jordan
- Direct Action buttons for M365 with Power Apps
– Wes Preston
- Power Platform Communication Site Template
– Daniel Laskewitz
– Manuela Pichler

Three great demos were delivered in this session, but unfortunately, the video was not captured in the session's recording.

We will ask the presenters either to record their demos and we will publish them or to return to present their demos in a future call.

We will update the session's blog post with details as we learn them.
